

cRc Passover Milk and Other Dairy Products

Milk and Other Dairy Products

These products cannot be packed for Passover after April 18 due to the fact that dairies cannot be monitored after that date. The “freshness date” of fluid milk is for 14 days after packaging in Chicago and suburbs; cottage cheese and sour cream have dates up to 30 days. Therefore, it is recommended that milk and milk products sufficient for the full 8 days of Passover should be purchased **before the holiday**, as stores may not have P-08 (meaning Passover 2008) on the label or container during the holiday itself. Only those dairy products stamped “P-08” or bearing “Kosher for Passover” have been produced under our special supervision for the 2008 Passover holiday. The cRc does not supervise any chocolate milk, yogurt, or cottage cheese for Passover. Since dairies produce products on a wide variety of labels, we are listing names of actual plants together with their plant numbers. Also shown are some major brand names in the Chicago area.

The following brands may be used for Passover if bearing one of the Plant Numbers shown plus the P-08:

American Fare (19-068)	Market Pantry (17-284, 19-068, 55-184)
